PLASTIC STAINING ACCESSORIES

Description:

Dish with Lid/ Pack(12)

Dipper w/ Plastic Handle / Pack(5)

Item#:

LWS0603P

LWS0604P

Staining slides with the new Staining Station is a breeze. Built with the user in mind, the staining station offers mobility with its lightweight design, allows for easy clean-up with its removable dishes, and features a lid rest meaning no more misplaced lids. The staining station includes a stainless steel base with plastic dishes, lids, and a dipper. The durable plastic and steel construction is resistant to most acids and solvents. Designed for microwave applications, the dippers are solvent resistant, constructed with durable Polyethylene Terephthalate (PEPT), and are autoclavable.
