

Cut into a frozen tissue block like you never have before with...

HISTO-COOL

- Environmentally safe
- Freezes quickly
- Stays cold for hours
- Red Histocool comes with insulating foam base
- Holds up to 30 blocks in an ice-cold environment
- Can be used ice-cold right out of the freezer

HISTO-COOL will keep your tissue blocks as cold as possible until you are ready to cut. Created by a Histologist for Histologists, HISTO-COOL will hold up to 30 blocks in an ice-cold environment until needed. HISTO-COOL can be used ice-cold right out of the freezer. Best of all, the specially formulated liquid gel within the unit is environmentally safe, freezes quickly, and will stay cold for hours! Available in two sizes, both HISTO-COOL versions are stackable, easy to clean, and have raised legs to maximize freezing temperatures. Each lid has a snug fit for maximum insulation and heat resistance. HISTO-COOL allows you to organize your sectioning day, giving you the opportunity to sort your tissue blocks in the most efficient way possible.

Blue Histo-Cool measures 12.5"L x 8.25"W x 3.75"H externally, and 10.25"L x 6.25"W x 2"D internally. Red Histo-Cool measures 8.5"L x 8"W x 2.75"H externally, and 6.875"L x 6.375"W x 1.5"D internally.

HISTO-COOL BLUE
(Holds 30 blocks)
Item#: TCZ1030BL

HISTO-COOL RED
(Holds 20 blocks)
Item#: TCZ1020RD
